DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Kempler on 6/17/11.

The dependency of claim 10 has been changed from "7-9" to --7 or 8--.

The dependency of claim 11 has been changed from "1-10" to --1, 2 and 5-8--.

The dependency of claim 12 has been changed from "1-10" to --1, 2 and 5-8--.

The current abstract has been replaced with the following new abstract:

A method and an amplifier for the compensation of nonlinearities of the class D type, wherein an audio signal is pulse-width modulated, with an analog or digital carrier wave signal in the form of a triangular signal to provide a pulse-width modulated small-signal. Multiplicative error signals, which occur prior to the provision of a pulse-width modulated great-signal, are detected in a detector having an output which is derived from, differences between the pulse widths of the small-signals and the pulse widths of the great-signals and used for changing the carrier wave signal so that the amplifier gets a constant gain in the entire audio range and is thereby linearized.

Reasons for Allowance

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 7, the closest prior art of record, Nielsen (Fig. 2) does not disclose the following limitations: the functional limitations of the detector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry Choe whose telephone number is (571) 272-1760.
